

Join the movement to “Cross at Kent”

Local residents are petitioning the City of Hamilton to request a Pedestrian-activated stoplight at the corner of Kent and Aberdeen Streets. Councillor Brian McHattie (Ward 1) and the Kirkendall Neighbourhood Association support this.

A volunteer came by your house today to ask you to sign the petition “Cross at Kent”. This flyer is for your information.

In 2008, the City of Hamilton signed the International Charter for Walking and is currently creating programs to promote walkability in the city (Active and Safe Routes to School). Your signature will help ensure that we make a positive difference in our city.

Some reasons this stoplight is important:

- Kent St. is a natural point to cross - Kent stretches from Amelia to Charlton and is part way between Queen and Locke Streets.
- HSR bus stops - both directions of Aberdeen at Kent have bus stops with no crossing stoplight.
- Residents need to cross - Ryerson, St. Joseph’s and Earl Kitchener schools, the HAAA, Radial and Reservoir green spaces, library and all Locke Street businesses.
- Aberdeen is not safe for pedestrians - narrow sidewalks about the busy road of speeding vehicles.

For more information, get involved or to sign the petition:
